Work Experience

TechPool
UI/UX Designer
Jun 2023 – Sep 2023

- Designed a tech website that showcases the company's services & vision in a captivating way.
- Implemented complex animations and transitions to engage users and visually communicate Techpool's values and offerings.
- Tested different design elements and layouts to identify the most effective solutions.
- Utilized Figma tool, including prototyping, design systems, and collaboration features, to deliver high-quality website designs.

Lazarus Network
Frontend Developer
Oct 2022 – Nov 2022

- Built a dynamic web app using React.js, integrating various APIs to deliver key functionalities.
- Designed and implemented user interfaces and user experiences for both the web app and browser extension.
- Implemented prioritized navigation, clear information hierarchy, and responsive design for optimal usability across devices.
- Collaborated closely with the development team to identify and resolve bugs, ensuring smooth operation and a positive user experience.
